

Protect the sea & the ocean edge envelope.

Protecting the "bush" nature of the town.

Improve the entry to A.R. Housing estate needs more vegetation ^{local species}

Make available to all residents lists of "indigenous" native vegetation and encourage use of same.

"Curate" landscapes that have been left too long to encourage new growth and revitalize stagnant environments (too little understory, too much growth of single species.). ✓

~~landscaping~~

✓ Landscaping along the foreshore with indigenous plants with areas for people to sit + enjoy the views.

CUT DOWN TREES SO WE CAN SEE VIEW ✓

The tree is the View ← ✓

+ protect marine (pests etc from visiting vessels)
(biosecurity)

More town landscaping, upgrading roads, footpaths, maintain trees along entrance so view is more WOW!

A key part of American Rivers future success as a township will be the protection + enhancement of recreational experiences that make the most of the natural environment.

Keep trees, Sugar Gums and
She Oaks, food to continue
our Glossy's. Preserve the
environment to keep the character
of the island.

Eradicate cats in the river.

Stop the Lagoon from closing
by stopping a marine at the
face of Pelican Lagoon.

Protect the natural environment
from illegal clearing of blocks.
