

What is your vision for the future of American River?

We would love to hear from you?

We are building a Strategic Plan for the future of the township of American River.

In building a Strategic Plan, ARPA hopes to achieve the following outcomes:

1. Create a unified vision for the town
2. Provide for a voice and support advocacy for outcomes that benefit all residents, business owners, home-owners and community associations
3. Support project funding applications and improve success rate
4. Inform the budgets and works programs of Kangaroo Island Council
5. Work collaboratively with government, agencies and community associations on mutually beneficial outcomes
6. Support appropriate planning and township infrastructure development/maintenance
7. Help everybody create a township that they want to work, live and play in, supporting the lifestyle and the reasons why they chose to live in American River

Community Drop-In and Workshop — ALL WELCOME

Thurs, 29 April 2021— 4pm to 7pm

American River Town Hall

practical
consulting group

This Strategic Planning process is supported and funded by the American River Progress Association.
