GREAT PLACE FOR KIDS TO GROW UP

great to raise family, employment opportunities (university available), awesome

beautiful, small, part of a community, lazy life style but enough amenities, services, activities to keep them here, optimism, young people moving in, country living at best, affordable ferry / transport services so they can keep in touch with family / friends

Because it will have a thriving  
village atmosphere based around a  
sensational lagoon offering a lot of  
opportunities for water sports, ~~and~~  
nature walks and bird watching.  
A great place to visit to escape  
the rat race, and a wonderful  
place to live.

### Opportunities for employment growth

Families will benefit immensely from living  
on the river. Child care center available  
with Reggio Emilia play, Youth centers, Skate Park.  
Living in a natural environment away from  
the risk of technology, over burdening young minds.
