

Q1 What should living in American River LOOK LIKE in the next 3, 5, 10, 20+ years?

Answered: 36 Skipped: 1

#	RESPONSES	DATE
1	American River should essentially look like it does now. With care and forethought the development of the town with its fishing village ambience and amazing natural environment can be retained. American river has two natural assets that are paramount to the towns survival as a tourist destination. Pelican Lagoon and the Glossy Black Cockatoos. The success of recreational fishing in the River depends upon the maintenance of pelican lagoon as a nursery and breeding area and the glossies depend on the maintenance of the sugar gums as nesting hollows and sheoaks for food. The impact of people on these two areas should be given serious consideration before any development. Too often a block is sold and then the remnant vegetation is cleared or large trees cut down without any forethought. In 30 years the view of AR had changed radically from the sea as more and more large trees are cut down. From reading the submissions it is clear that people want to retain the look of the town but without addressing this area the bush appearance and appeal will steadily decline. Many people are concerned about fire but it is through the maintenance of understory that one can mitigate fire rather than the clearing of large swathes of bush. This has been made abundantly clear by many workshops I have attended here in AR. Education about the reasons why NOT to do things is important as well as addressing development applications in the light of topography, existing vegetation and the impact on the important environmental issues that we all take for granted.	5/23/2021 8:10 AM
2	In the 3 to 10 years Should have curbing and paved roads on all existing township allotments. Aged care housing needs are fully provided.	5/21/2021 3:50 PM
3	In 2041, American River is a coastal village with a thriving local economy based around positive impact aquaculture. There is a balance of young and old in the town with many bringing their families to the town to free-range their offspring. American River Ecotourism, positive impact aquaculture, hospitality and accommodation are all employers of choice on Kangaroo Island. There is childcare on the town to enable women wanting to work the opportunity to do so without having to drive an hour to use these services. Visiting doctors, physio's and other specialists consult regularly in the town. Fuel and a small supermarket service the locals and visitors from both land and sea. A native oyster reef hosts ecotourism diving activities and boat charters from the wharf with local positive impact aquaculture businesses integrating with tourism and research and development of ocean eco system habitats. The working wharf is a Ecotourism hub focussed around positive impact aquaculture with recognition around the world.	5/21/2021 12:52 PM

10	How it always looked. Quaint fishing village with historic connection. If people want Byron Bay, go to Byron Bay.	5/18/2021 8:21 PM
11	We should have increasing services over these years. Water is a great start and the PO/Shop good, and the few restaurants we have. These need need to be built on to include: petrol station with replacement gas, additional cafe, the new hotel development, work at the wharf to support the boaties - electricity, fresh water. A small sailing club could be developed. The RIG shed could become a site of significant historical interest. the Independence itself a tourist attraction and the skiffs and dragon boats all need to be celebrated. The new gallery could be added to to hold onto the history of AR.	5/18/2021 7:01 PM

swimming beach (perhaps in front of the current caravan site). There are restaurants, cafes and takeaways to get meals during the day and in the evening. The wharf is clear of permanent boats so residents and visitors can fish at the wharf. Residences will have lovely gardens because of the water connection. The community art gallery is a must see destination that holds art classes. The wharf precinct is no longer industrial. Development in the area should be subtle and sensitive to the residents existing scenic views and natural environments. The much used boat ramp is maintained to a high standard. Prolific bird life is enjoyed by residents and visitors. The popular oyster farm shop moves to the wharf where the oyster industry function currently is with adequate dedicated parking. The increasing popularity of the caravan and camping grounds means that it has been moved to another area that can accommodate more powered sites. Public toilets remain at the boat ramp or wharf area. Roads are maintained and safe.

24	American river needs a Marina to bring in more tourists. The area between the boat ramp and wharf needs to be developed as a proper world class marina. This will attract investment , jobs and opportunities for our children.	5/16/2021 8:59 AM
25	Certainly not like the mainland with bland sub-divisions of badly built and positioned houses with no awnings requiring heating during increasing temperatures. Certainly not ghastly mainland signage stating the bleeding obvious. Certainly not cutting down trees and removing vegetation because of an unbalanced fear of fire.	5/15/2021 5:26 PM
26	Not much more sophisticated than it currently is however the community needs to reach some critical mass to allow it to enjoy the basic essentials such as a variety of fuel, food, entertainment and amenities enjoyed by other larger communities.	5/15/2021 4:11 PM

31	A community, with events like it used to be. Regatta and Frieda festival a hub at the wharfe for food vans and markets to give the river life again.	5/10/2021 9:05 AM
32	A coastal community that has a thriving aquaculture and tourism industry with things for people to do and see based around nature tourism. Services for residents including fuel, shopping and healthcare. A place for families to live and reduce the average age of the population, increase the number of residents needing employment.	5/10/2021 9:04 AM
33	A tiny town with soul. This means to me the town grows slightly and in a way that people	5/9/2021 6:28 PM

can come here and live and leave here to go elsewhere their heart desires (or body requires if being a bit of a downer). We will know that is achieved when our community is maintaining and slightly growing its base and the numerous volunteer groups and employers find it easier to attract and hold volunteers and essential workers. The town has been in a long decline so it has some catching up to do especially when its considered that most of the volunteers are well into their 60's and 70's. We need to look ahead and plan for these coming after us to enjoy a community with a soul.

Q2 What should living in American River FEEL LIKE in the next 3, 5, 10, 20+ years?

#	RESPONSES	DATE
1	AR should feel like it does now. There is a small town friendliness and openness that characterises the town. it feels very relaxed and the ambience is inviting. There are many improvements that could make the town easier to live in but they need to be done with care. Footpath on the forshore between the tennis courts and the CFS. But where ? does it go next to the road? On the foreshore? Wherever it goes it should be a material in keeping with the feel of the place as it is. A levie is not an option. I have never seen the area in front of the proposed levie flooded except for the tennis courts and the sea when it rises will just sneak around the side of it anyway. Unlike many I would like to see more trees planted on the foreshore. They have been systematically cut down in the last 10 years and there is very little shade to speak of	5/23/2021 8:10 AM
2	There should be a friendly atmosphere with anf have country style hospitality.	5/21/2021 3:50 PM
3	Proud and properous. Residents feel proud to be living in the coastal village that has created its own unique identity, with low unemployment, increased population and lower average age. With a thriving economy based on Ecotourism and positive impact aquaculture, improved services are established for residents to enjoy through investment in the town.	5/21/2021 12:52 PM
4	Quiet and peaceful, with a vibrant local community which has a say in planning decisions	5/21/2021 11:32 AM
5	Relaxed, strong community feel that achieves a balance between residents and visitors needs.	5/21/2021 12:04 AM
6	similar to Emu Bay or Elliston - regional town on the coast	5/20/2021 12:58 PM

8	peaceful, tranquil, safe place for young families & retiree's plus those of us who enjoy the serenity of it.	5/19/2021 12:45 PM
9	5 years very relaxed vibe in the river with cannabis legalised on SA in 2022 the local clandestine growers now have guides selling joints, some products claim to have been grown pure for more than a century, world class dope!	5/19/2021 6:49 AM
10	Unique by not copying other KI regions. Special by having intrinsic historic events happen on the shoreline.	5/18/2021 8:21 PM
11	It should feel like a place that people are proud of and want to share. There should be more to share and the locals need to change their attitude towards visitors and improvements. Soon they will not be here anymore and we need new families and more for younger families to do and/or meet. It's for too long been a place where a few have dictated what it is that everyone in the River wants. They fight any progress - even when on the Progress Association. Most locally run groups - ARPA, The Shed etc are not welcoming, they behave in an exclusive manner.	5/18/2021 7:01 PM
12	Safe, peaceful, simple. Where visitors are welcomed and residents respected.	5/18/2021 6:57 PM

13	The feel of the place is what we all love....please don't destroy it with a short sighted money grab	5/18/2021 6:17 PM
14	It should feel like a wonderful village that supports both artists, residents and with a sense of moving in a a positive direction	5/18/2021 3:43 PM
15	Maintain the quiet atmosphere by keeping the town small, sustainable - maintained the same level of nature.	5/18/2021 2:56 PM
16	A place of tranquillity where people can enjoy activities on water and in the bush, with adequate services and a strong sense of community	5/18/2021 12:08 PM
17	Calm, peaceful, loved.	5/18/2021 10:42 AM

23	A marine township	5/16/2021 10:27 AM
24	Modern	5/16/2021 8:59 AM
25	Less of Deliverance Country and more inclusive of the whole island. Less parochial less small-minded. More celebration in the spirit of American River. Less losing special hard fought for services such as the Outreach Medical Centre which will an increasing population will be a loss heavily felt. Any development proposal should be examined focusing on what the AR community will likely lose as a consequence of it being built rather than what they vaguely will 'win'.	5/15/2021 5:26 PM
26	People need to feel secure, and as individuals they need to feel they are listened too in every aspect that affects their daily lives. They need to feel they are a spoke in a bigger wheel each interdependently needed, trusted and respected.	5/15/2021 4:11 PM
27	quiet and friendly	5/15/2021 1:07 PM

29	A place where everybody knows your name, builds on community and supportive to all	5/10/2021 3:10 PM
30	A community, connected by common open spaces and street scapes. Not overbuilt and crowded. It's special because it's small and sleepy	5/10/2021 9:50 AM
31	Connected, vibrant and yet still calm	5/10/2021 9:05 AM
32	A bustling town centre servicing residents and visitors whilst still retaining the quiet, peaceful appeal of the location. it should be a place to recharge but without missing out on the services residents need.	5/10/2021 9:04 AM
33	That sense of being in a close knot community that helps each other but is not in each other's pocket. The feeling that services are here when needed and some when. just would add some life to the day and the community spirit.	5/9/2021 6:28 PM
34	As mentioned above, along with welcoming and homely	5/9/2021 9:13 AM
35	Not like a retirement centre. But that's the way it has been for years. There is no future in American river youth, they have to leave to find employment families have to leave to support there children	5/8/2021 8:37 PM

It has a sleepy feel, the Shed is a wonderful place, always welcoming, hosts major events with flare, it has so much potential but not mainland tourist crap potential.. please don't start offering exactly what they can get on the mainland here and thus change the atmosphere of the place. It certainly is unique so try to keep that uniqueness. Unfortunately every business is about making truck-loads so onwards and upwards will only result in grasping money-hungry decisions with the familiar catch-cry, 'jobs (low-skilled) for our kids (but don't check the figures too closely after the	5/15/2021 5:26 PM

8	Everyone world wide has heard about The River since Kanye West bought the failed golf course and now building an apocalypse bunker to reside at the 9 fairway is the runway for private jets not a week goes by without American River being reported in the news drug and sex tourism is numer one much long time	5/19/2021 6:49 AM
9	Matthew Flinders stayed ashore overnight around the wharf region 4 April 1802. American sealers camped at the same place for 14 months during construction of a schooner vessel. The French charted the lagoon in watercolor detail. Apart from the yankee sealers, who knew about the other details...and who in AR really gives a rats ass? The township built a scale replica of Schooner Independence. This alone will place AR as a drawcard.	5/18/2021 8:21 PM
10	AR is the perfect coastal spot whether you are a sailor, fisherman or landlubber. It's a place where you can enjoy the water by being on it whether you are in a kayak, fishing boat, skiff, yacht or even a replica of one of the first boats to sail to Australia. You can also enjoy the water whilst sipping a coffee on the wharf, or holding your rod on the jetty, photographing the sun rise from the Cannery Walk, taking a stroll along the lagoon, spotting the wildlife from a hide or drinking a cocktail at the rooftop bar of our 5 star hotel.	5/18/2021 7:01 PM
11	American River is an unspoiled coastal village where fishing and boating are very popular. The waterways are pristine and tidal movements create changing coastal vistas. There may be a view of the mainland but you feel a million miles away from the hustle and bustle.	5/18/2021 6:57 PM
12	I have no idea since I am afraid all that we love about AR is under attack by short sighted money grubbers.	5/18/2021 6:17 PM
13	It's a beautiful village with wonderful ammenities including waterside restaurants cafes and marina	5/18/2021 3:43 PM
14	The place to come for quiet enjoyment of nature , in a small town that provides basic services and welcomes visitors	5/18/2021 12:08 PM
15	A nice fishing village to go for lunch at a cafe, followed by a bushwalk or a visit to Independence replica. You can go fishing or visit retreat for some R&R.	5/18/2021 10:42 AM
16	Great place to taste good food/wine and keep boat in small marina with fuel	5/18/2021 10:00 AM
17	A charming little backwater with a general store, fuel and relaxed pace - enjoy the coastal walking trails, nearby Prospect Hill, oyster farm produce and of course the small cart stores, batteries showcasing KI produce and fishing charters	5/18/2021 9:57 AM

21	It will be a small marine oriented township with a marina.	5/16/2021 10:27 AM
22	The river, like the rest of KI has been very slow to move with the times , American river needs to support the people who are making positive changes or it will be the same in 20 years	5/16/2021 8:59 AM
23	It's like a little fishing town with a big heart, there's a wide variety of great relaxed eateries, nothing like the mainland, beautiful trees, a stunning wharf venturing out into the estuary. Keep an eye out for the Glossy Blacks, you'll hear their frequent calls. Watch for the wildlife too.	5/15/2021 5:26 PM
24	A place where people enjoy the company of visitors and share the benefits of the community with them. The population should not exceed the limits imposed by the known and understood environmental impacts.	5/15/2021 4:11 PM

30	American River is a pretty seaside town with a range of accommodation to suit all budgets and needs. It is the home of the Kangaroo Island oyster and fresh seafood with a range of seafood experiences on the wharf. There are walking trails, bird watching, fishing, oyster reef tours, glass bottom boat tours into the lagoon and great places to dine.	5/10/2021 9:04 AM

14	Ecological/environmental development organisations that are respectful in how they go about their business. American River doesn't need to fade into yet another cardboard cut-out coastal town lacking in personality all for the sake of "growth". Perhaps a start-up looking for their first big break? Profiteering developers. The partner depends on the vision. For a vision of peace, we only need residents with that vision.

18	None	5/17/2021 8:29 PM
19	KI community organisations, KI Council .	5/17/2021 12:45 PM
20	The marine industry.	5/16/2021 10:27 AM
21	Investors, and locals who have vision.!	5/16/2021 8:59 AM
22	Depends on what we what. Do we want something that is replicated across regional Australia as we compete with other regional tourism spots that end up all looking the same or will our uniqueness be what everyone will be looking for when they get bored by the relenting sameness.... So, if it's corporate Australia we are stuffed. If it is Islanders then it must not be about capitalism - make a motza. It must be able retaining what we have not getting bigger - need more car parking, need more dunny power, need to expand, and expand, and expand, and thereby lose everything. It will just end up an impersonal wasteland. If it is Islanders then it has to be leaders in our community, not capitalists, no climate denying mayors, not people who want development for development's sake. We could partner with other communities who are trying to protect and retain their uniqueness, their community's individuality and energy. Vision can be about working together not spending funds. It can be people power (depending on the demographics) participating in community- led activities. Helping new businesses that want to be unique and be a part of the community would have to be a focus so creating and supporting the pathway for those business deemed connected with community spirit to get permissions, to go through the arduous processes that businesses are subject to..	5/15/2021 5:26 PM
23	Council would be a disaster. State & Federal Government is driven by growth. The only option is to partner with an organisation/company that agrees with the values set by the AM community. Such entities exist. Before this can happen the community needs to "own its future" A community that owns its future will attract the right partner - been there done that!	5/15/2021 4:11 PM

27	The community! The people who live there!	5/10/2021 9:50 AM
28	Local government,local association,arpa, shed	5/10/2021 9:05 AM
29	Investors (current businesses AND future investors), government agencies e.g. SATC, identify a way we can capitalise on the maritime history and the seafood opportunity which is unique to the island and support the industries that are creating employment for those who are of working age in the town. KI Council to ensure infrastructure supports our vision. Regional Development Board to have access to grant funding that may become available.	5/10/2021 9:04 AM
30	The key businesses in AR - Mercure, wanderers, all the airbnb owners, the cafes, and oyster shops. They set the tone of the place by their investment not just toe are a buck but become a valuable part of what makes this tiny town so attractive for locals and the trickle of new owners and residents we need to keep the lights on.	5/9/2021 6:28 PM

9	Not stupid aquaculture. Just because it can be done on KI or AR doesnt automatically qualify the product as being world class. This over estimation of local produce quality on a world stage, where KI is nowhere within, does shit people off. AR should however leverage the history gift from Flinders, Baudin, & Quaker sealers, the latter of which is currently being very well executed by Tony Klieve and RIG team. Very popular attraction to the township. Let that serve as a perfect example.	5/18/2021 8:21 PM

Q9 What is needed for the NATURAL ENVIRONMENT in the future?

Answered: 36 Skipped: 1

#	RESPONSES	DATE
1	There needs to care and forethought to retain the natural environment as it is. This is our greatest asset. There is a lot of talk about development at the wharf. There have been two previous marina proposals for this area, both of which were found to be impossible to construct /develop because of the impact on Pelican Lagoon. A conundrum as it is our greatest asset as well as being a limitation. We do not want to be in the situation where a development destroys the future fishing capacity in this area as has happened with the St Kilda mangroves north of Adelaide in the last 6 months. There needs to be a concerted effort to control invasive weeds and to maintain the natural environment in at least a similar or better state than it is today.	5/23/2021 8:10 AM
2	Needs for the Natural Environment include fixing up the filled areas of the wharf and boatramp. Wetlands for Storm Water RetentionandTreatment.	5/21/2021 3:50 PM
3	Native oyster reef to improve species diversity, natural ocean habitats and controlled coastal development that are in keeping with the natural character of the town and minimize impact on water quality to protect the positive impact aquaculture industry	5/21/2021 12:52 PM
4	Retain as much natural vegetation, scrub and fauna	5/21/2021 11:32 AM

25	Certainly not a relationship with current state Environment Department who are so busy flogging off the place there will be nothing unque left. Watch what they offer as strings always attached. What is needed is a ban on all the bloody chain-saw activity. Pop your head out anytime during the weekend particularly and all you will hear is endless cutting. I'm not joking. They just do not understand that the natural environment which includes trees is a major attractant to both tourists and to new settlers. Once you cut them down it takes ages to replace them. Bare and bland is where we are going. What is needed is rules and enforcement. Stop cutting down the bloody trees how simple is that?	5/15/2021 5:26 PM

Q11 What INFRASTRUCTURE & AMENITY is needed in the future?

Answered: 35 Skipped: 2

#	RESPONSES	DATE
1	A relocation of the oyster shed would be great. the development at the wharf has created a problem with access, congestion and safety. In the original EDR Court approval of the oyster shed it was clearly stated that the shed next to the tennis courts not be rebuilt and that all materials pertaining to the oysterlease ie nets bouys etc be stored out of sight. neither of these have happened and the old shed was replaced. The oyster operation has been very good for the river and must be commended but this is a classic example of devt decisions being made and then ad hoc devt taking place anyway. There does not need to be any over water development as there is plenty of available land with water views for cafes, restaurants etc. Everywhere in American River has an amazing view ! There is community land near the oval and shed that could be used for further infrstructure with approval by the community.	5/23/2021 8:10 AM

10	The "common Non binary" exist only as nomadic hunted fugitives many are reported but the thriving raids are less each year	5/19/2021 6:49 AM
11	There is enormous potential to have a dry dock slipway put down at the wharf. It is basically waiting to be put there with minimal infrastructure.	5/18/2021 8:21 PM
12	Marina or services for boaties. develop the area between the wharf and jetty to include boardwalk, safe swimming area (lido).	5/18/2021 7:01 PM
13	Defined visitor parking. Public toilets and BBQ shelters. Swimming beach. Health services (perhaps at the ambulance station). Grocery store open 7 days a week. A population that supports local business so they can extend opening hours and inventory. The town centre zoning does not really work for Moreanda Ave and Bimberta Ave area as it is not really attracting businesses but at the same time limits existing residences to improve/expand their homes. A sporting complex is a core community and public resource.	5/18/2021 6:57 PM

punt. Why can't the current residents build similar. It would reduce roadkill on the Hog Boy Road. It would link Penneshaw to the River. It need not disturb the sea floor or marine life. It would not interrupt boating as boating is not allowed at that section anyway, it being a Marine Sanctuary.. survey it and see how many residents would support it. That's all.

Q12 What is needed for COMMUNITY & CULTURE in the future?

Answered: 34 Skipped: 3

#	RESPONSES	DATE
1	This community does a good job of creating occassions and activities . Think the Pointers, the redevelopment of the hall and subsequent concerts, events, parties and dances there. The art gallery will grow and there are events such as the gala day and fishing comp that will return post covid. The whole island suffers from the lack of cultural activities but when things arise it would be good to make sure American River is on the calendar. In my experience the River consistently has the biggest audiences/attendances of any community when events happen in the different towns.	5/23/2021 8:10 AM
2	Enertainment area for events with seating and shelter.	5/21/2021 3:50 PM

8	a place to show all of the american river history from 1803 to now.	5/19/2021 12:45 PM
9	Hope	5/19/2021 6:49 AM
10	A place to have a drink outside the tiny service window of 2 nights a week without outsiders being made to feel they are interrupting a Jamieson family gathering i.e.-less clique us/them attitude. AR has an enormous chip on its shoulder and in other regions the locals are not known renowned for being welcoming or particularly friendly to outsiders. They will wish to deny that, but it is very apparent. Open the place...not just when management feels like it. Yes, talking here about the shed sports club (drinking club). Leverage from the historic gift. Organize more sailing regattas. But again, the locals need to get the stick out of their ass.	5/18/2021 8:21 PM
11	Openness for change. A sense of togetherness. More visiting performers.	5/18/2021 7:01 PM
12	Art gallery expands and is run by a paid position with assistance from volunteers. Water connection enables a community garden to be established. A safe swimming beach is created and maintained. Musical performances are held at the community hall. Maintain the ability of residents to live a simple and affordable life.	5/18/2021 6:57 PM

Their efforts would be magnified if there were more harmony. CULTURE: Education about our history of place. a maritime museum that celebrates the diverse history of American a river: the sealers, their indigenous "wives", the settlers, the Chinese cannery workers, the scots, the salt miners, the gypsum and charcoal and yucca gum producers, all here in American River and so few know about them. Let's celebrate this diverse story. With a fitting tribute, a maritime museum. When the Independence sails out, a museum will grow.	5/17/2021 10:26 PM

27	Community garden would be my first choice	5/10/2021 3:10 PM
28	A neighbourhood centre with some of the above suggested groups. More boardwalks through the fauna breeding areas, to raise awareness and protect the wildlife who live and breed in the area. A local artisan or crafters group with a shopfront/cafe to be able to sell their products	5/10/2021 9:50 AM
29	New ideas, but old. Regatta used to be the highlight of the town with food and stalks on the wharfe would be great to see a couple a year and a yaught club boating club. Festivals to utilize the hall and bring people around	5/10/2021 9:05 AM
30	A safe place to swim with a pontoon	5/10/2021 9:04 AM
31	Some really hard thinking on where volunteer starts and ends. The ageing population makes that more critical as the older ones naturally can't bear the load they once did and we don't	5/9/2021 6:28 PM

have many younger ones here or even coming forward to carry the load.

Q13 What is needed for BUSINESS & EMPLOYMENT in the future?

Answered: 34 Skipped: 3

#	RESPONSES	DATE
1	There are many small businesses in the community. Imposing from above is not the way to grow a place. Help with startup ideas, accounting, marketing etc are things that will be of help so people can feel secure in investing in their future in the town. We do not need a town full of cleaners and hospitality workers for large developments. This is not to denigrate these occupations but there needs to be alternatives as well.	5/23/2021 8:10 AM
2	Coordinated approach between major tourist developments and community to provide local services..	5/21/2021 3:50 PM
3	Community support for businesses investing in the town. Water. Security of tenure to encourage investment and long term employment opportunities	5/21/2021 12:52 PM
4	Tourist related enterprises	5/21/2021 11:32 AM
5	Emphasis on smaller, local enterprises. A small scale conference facility catering for conferences up to 200 people but not a multistorey building -2 stories maximum.	5/21/2021 12:04 AM

Serene water sports like paddle boarding or kayaking.	5/18/2021 10:42 AM
17	Encourage tourism/business get people to visit as not a destination at all currently. We have seen the town die for past 15-20 years	5/18/2021 10:00 AM
18	Mountain bike trail mecca, eateries, AirBnB style acocomodation (self host)	5/18/2021 9:57 AM
19	Incentives (housing, training, subsidies?) for staff - I'm not qualified to suggest solutions but I do know it's hard to get staff all over the island. There is more work than people willing to do it.	5/17/2021 10:26 PM

26	Town central hub where tourist and residents meet .Make the wharf area open space town link to nearby cafe supermarket and central hub .	5/11/2021 12:55 PM
27	A more holistic tourism approach. Something that makes the river a place to absolutely visit	5/10/2021 3:10 PM
28	Support for young families including a child care centre (could be attached to a community centre. More eco tourism opportunities - such as tours of pelican lagoon, boardwalks through breeding areas with local guides to raise awareness of this unique area. A small fuel sales outlet so tourists have somewhere local to fill their cars	5/10/2021 9:50 AM
29	Businesses that can offer fulltime work not just casual. I can get 5 casual jobs but not one full-time	5/10/2021 9:05 AM
30	Entice younger people to move to the town, workers accommodation, entice families to move to the town, water connected, improved business networking to gain efficiencies from shared services, resources and consolidated freight etc.	5/10/2021 9:04 AM
31	More focus and work to provide services - eg lots of money has been slashed around by govt's so issues such as bowling greens, swimming pools, expansion of the community shed and speed up of key tourism activities such as RIG would be a shot in the arm for the township. Employers to be more aligned with how they can attract and retain staff in what is essentially a remote rural location - eg limited casual hours at shitty rates is just why they can't get staffing. Lots of consultant hep around at no cost to work through and find the sweet spots here but it does take a change of approach toward staff. The backpackers are gone for a few years at least	5/9/2021 6:28 PM
32	A plan and vision with some federal assistants	5/9/2021 9:13 AM
33	Businesses employing locally	5/8/2021 8:37 PM

1	Utilise existing community land for parklands and nature reserves to maintain the council owned land for a visually pleasant amenity and fire risk reduction through vegetation maintenance.	5/21/2021 3:50 PM
2	Kangaroo Island Shellfish and KAR Management (The Oyster Farm Shop) have conducted ethical, sustainable (environmental, financial and social) in the town of American River since 2008. We employ around 10-15 staff plus contractors throughout each year with significant personal investment into the town. We have been striving for security of tenure on the wharf to enable further investment since 2008 and are currently progressing a project in conjunction with council to invest further in improved fencing along Tangara Drive in order to improve the overall amenity of the town centre. Work will commence on this during winter. We are also building a waterfront tasting room in the front bay of one of the oyster sheds on the wharf for high end experiences focussed on local aquaculture and wine. Our farm shop will have increased dining capacity and street appeal also. These two businesses have survived a one in 30 year storm, two year statewide spat shortage, bushfires and now covid. We have kept our staff employed and continue to contribute to the local economy through these iconic Kangaroo Island businesses. We are leaders in positive impact aquaculture and are passionate about the environment. We hope we make our community proud and that we are supported as we continue to invest our livelihood into the future of American River. Security of tenure is now the biggest challenge we face and indeed holds back further investment. If this is not achieved then the future of the businesses will be in jeopardy.	5/21/2021 12:52 PM

3	The island is isolated from the rest of the state with a small population to support the revenue that the local government needs to service it. The State government must give it special consideration and funding if its tourist potential is to be fulfilled.	5/21/2021 11:32 AM

5	no need for multi storey hotels	5/20/2021 12:58 PM
6	Kangaroo Island in the last 20 years, has had no increase in permanent population. Agriculture offers economic stability.Tourism ebbs and flows. Future tourism will be noticeably different. The foreseeable tourism experience will need to be carefully advertised, managed and promoted.To speak to duplication of services in American River, (fuel, supermarket, alcohol etc) with a static Island population, is nonsensical.The dilution of distribution will lead to greater business failures. The construction of a 135 room motel development with associated staff accomodation should be supported.It's a passive investment that will offer the relief valve sometimes needed, while not overly disrupting or stressing American River residents or infrstructure.What will American River look like in 20 years? - as it does now.	5/19/2021 9:42 PM

26	Where can I become a ARPA member	5/10/2021 3:10 PM
27	Keep this town small and connected. We don't need large resorts to make it like everywhere else. Keeping the tourism to smaller accomodations help protect the look, feel and environment of American river. Keep our small town small!	5/10/2021 9:50 AM
28	The river needs to change to survive would be great to see it come back to life. We used to have boats and windsurfing and horse riding so much activities for people to do now it's limied. Encourage new business like houseboats.	5/10/2021 9:05 AM
29	American River is unique. It is this uniqueness that we should capitalise on, not try to imitate what other places on the island have.	5/10/2021 9:04 AM
30	The tiny town has a huge fan base across the state and some careful marketing plus fixing the ferry issue could find we have a small but steady return to how the township was 30 years ago. The environment and location is so attractive that the 'lock it away' mindset will just lead us down the path of a single mega resort and no soul for the town anymore ans no reside its to revitalise it in the future. We need to act now while we still have the residents that have and can continue to make a difference and help revitalise the township	5/9/2021 6:28 PM

32	For to many years we the younger generation have been shut out of having a say or not being listened to. We are the ones that will be left with what the older gen have left us. I have lived in American river since I was 16 now 43 it is still the same as when I moved here. Time people let go so we can move forward	5/8/2021 8:37 PM
33	Yes, why do we need an outside consultant to tell us what our vision is.	5/8/2021 5:38 PM
